

# Narrow-leaved Apple

This small tree produces an abundance of flowers late into the Summer months. It provides a splash of colour when most other plants have finished their display, providing nectar for many native insects. Native to coastal woodlands, this hardy tree enjoys a full-sun position making it an excellent street tree.

You can see a great example of a Narrow-leaved Apple planting at 14 Shelley Street, Winston Hills.

<i>a</i>	<b>Botanic name</b>	Angophora bakeri
	<b>Origin</b>	Australia
	<b>Typical height</b>	10m
	<b>Typical width</b>	5m
	<b>Foliage Type</b>	Evergreen
	<b>Leaf</b>	Grey-green and narrow
	<b>Bark</b>	Rough
	<b>Flowers</b>	Cream and odourless
	<b>Fruit Pod</b>	Brown capsule
